Registered Certified Backflow Device Testers

All backflow prevention assemblies installed at commercial facilities must be tested annually. This testing must be performed by a Plumbing or Mechanical Contractor who is certified by the State Plumbing Board and who has had their test gauge certified within the current calendar year. **We require that all device test results be submitted using our web-portal as we no longer accept device forms by email, mail, or fax.**

Below is a current list of companies (as of 5/01/2016) that have met our requirements and are registered to test and electronically submit data for devices in the City of Wyoming. This list is provided as a courtesy and is not intended as an endorsement; the businesses listed below have no affiliation with the City of Wyoming. It is the responsibility of the facility owner to hire a contractor and pay for any services rendered. It is recommended to call more than one contractor for price quotes and comparisons before making a selection.

Accurate Plumbing	(616) 877-4790	H2O Compliance Svcs	(989) 729-7527
